The Pyochlorite Treatment of Water at Chicago

The attention of the public, as health and municipal authorities, has been directed during the past few months to the purification of water by means of the addition of small, very small quantities of hypochlorite of calcium, otherwise known as chloride of lime. We have been led to believe the process is a very simple one; indeed so simple that a child might almost direct the treatment. It is true that in case of emergency, municipal and health authorities may, under the direction of a sanitary engineer, improvise the means for the application of the hypochlorite and thus prevent outbreaks of typhoid fever when the water is sewage polluted; but for the proper and scientific installation, as well as for the oversight and management, expert services give the best result obtained. These facts are clearly shown by the work and operation of what is known as the Bubbly Creek Water Purification Plant of the Union Stock Yard and Transit Co. at Chicago, which has been in operation for nearly two years.

The following information, descriptive of it is taken from the report of C. A. Jennings, chief chemist and superintendent of filtration.

First, as to the class of water. Bubbly Creek receives the sewage of some 350,000 people—about the population of the city of Montreal, and a larger population than the city of Toronto. The normal size of the creek is not given but the bacterial results for a period of twelve months show the maximum to have been 2,350,000 bacteria per cubic centimeter (about 18 drops), while the minimum was 30,000—the average being 354,000 per cubic centimeter.

Without entering into the detail, it may be said that the plant consists of pumps, a canal, now part of the sedimentation system, 3 pairs of settling basins and mechanical filters. From these latter the treated water flows into the clear-water well and from thence it is supplied to the stock yards.

Consequent upon the close and intelligent oversight maintained, various changes have been made both in operation of the plant and in the chemicals used in the treatment of the water. These can be learned in detail by reference to the "Engineering Record" of September 24th, 1910. At the present time, the coagulant used is sulphate of alumina, a solution of a strength of 3.3 per cent being used. Subsequently

hypochlorite solution of the strength of 1.2 per cent is added, after which the water passes through the filters and is then ready for use.

As regards the cost of operating this particular plant, the contract guarantee called for nothing in excess of twenty dollars per million gallons, this to include cost of chemicals, labour, and power for pumping, but not depreciation charges and interest on investment. The cost of operation has averaged only \$10.54 per million gallons, and a still further reduction in cost of operation will be shown, as, since the use of hypochlorite, a total reduction of some 60 per cent. has been made in respect to chemicals alone.

Too much credit cannot be given to Mr. C. A. Jennings for this practical demonstration of how water strong polluted with sewage may be converted into potable water of a high quality. The reported stotes it was drunk by himself and his assistants in preference to the city water, and he significantly adds, "There has never been a single case of sickness or intestinal disorder caused by doing so."

Undoubtedly, municipalities having water supplies liable to contamination by sewage have much to learn from this interesting work and they certainly can have no excuse hereafter for serving out to the public a sewage-polluted water.

Bad Cave In

At one o'clock Monday morning, the walls of the excavation for one of the largest land piers of the high level bridge on the Edmonton side, collapsed and many tons of earth fell in, carrying with it a derrick, several mixers, boilers and several other pieces of machinery. The cause of the collapse is attributed to natural pressure. The excavation is the same one in which a vein of coal was discovered two or three weeks ago, and was in depth, prior to the collapse, about twenty feet. It will take several weeks before the damage will be remedied which will result in a corresponding delay in the completion of that particular pier. It will not be known if any of the machinery is injured until the earth is removed.

Alberta Second in Immigration

Ottawa, Oct. 18.—The report of the superintendent of immigration for the year ending March 31, 1910, which is embodied in the annual report of the department of interior just published shows that Ontario still leads in the number of immigrants received, with Alberta a close second.

The returns by provinces are as follows: Ontario, 46,129; Alberta, 42,509; British Columbia, 30,532; Saskatchewan, 29,218; Quebec, 28,524; Manitoba, 21,049; Maritime Provinces, 10,644.

American immigration flowed mainly to Saskatchewan and Alberta. Ontario received 40,500 immigrants from the United States, and Quebec about the same number.

Nearly two-thirds of British Columbia's immigration is from the United States.—Morning Albertan.

Freight Wreck at Kinivie

Medicine Hat, Oct. 15th.—A collision
between two freight trains at Kinivie
siding, forty-four miles west of here con-
siderably delayed traffic and damaged
rolling stock to-day. A westbound train
having the right-of-way, was proceeding
at a fairly good speed and an eastbound
train was taking the siding at Kinivie,
unprotected, it is stated, by a flagman.
The westbound locomotive crashed into
the side of the eastbound cars, the en-
gine containing damage as well as several
box cars.

Engineer Cardoe, Conductor Patten
and Brakeman Cannings and Trider,
composed the crew of westbound train,
and engineer Jamieson, Conductor Kirk-
land and Brakeman Findlay and Clancy
the eastbound.

Conductor Patten had his face cut by
being thrown against windows of his
caboose, Brakeman Trider suffering simi-
larly.

George Whittaker, a hobo, who was
beating it on one of the cars, had both
legs broken below the knees. He was
brought into the Hat in a caboose of a
portion of the east-bound freight on the
line being cleared. He was removed to
the hospital and is expected to recover.

C. P. R. Conductor is charged
with Theft

Moose Jaw, Sask., Oct. 14.—C. W.
Connors, ex-dining car conductor on the
C. P. R., running between Portal
and Spokane, was committed for
trial at the police court here this
morning charged with the theft of
\$330, being six days' receipts on his
car in June last, Connors left the
employ of the company in August
last. Since that time an investi-
gation of the books showed the de-
ficiency, and Pinkertons were em-
ployed to trace the alleged defaulter.
Connors was arrested at San Fran-
cisco two weeks ago.

Good Welcome for
Burns

When Tommy Burns, ex-heavy
weight champion of the world reaches
Calgary on Friday, Oct. 29, at
11:30 a. m., he will be greeted like
a conquering hero. Tommy has
many friends in this city who have
been endeavoring to find out just
when he will reach here, and yes-

terday a wire from Burns fixed the
time and date, and in less than an
hour arrangements had been com-
pleted to have Burns met by the
Calgary Citizens' Band and a number
of his friends in automobiles, and a
procession arranged so that Burns,
as a Canadian, will get a real
Canadian welcome.

In the evening his friends are ten-
dering him a banquet at Cronn's
Cafe, and the whole of his time here
will be taken up in entertainment as
his friends are determined that Cal-
gary shall be shown to Burns to the
best possible advantage.

The arrangements for his exhibi-
tion at the auditorium rink have al-
so been completed and a new motion
picture machine has been installed
which will give the very best repro-
ductions of all the best contests
Burns engaged in when he was win-
ning the world's heavyweight cham-
pionship. The Johnson-Burns films
will also be shown, and as these are
far superior to even the Johnson-
Jeffries films they will prove a big
drawing card.

In addition, Burns and his brother
will give an exhibition of training
stunts, taking in skipping, bag-
punching, shadow sparring, etc.,
and the exchampion will box a few
rounds with Billy Lauder and some
of the other boxers of this section.

Alberta Cattle Trade
Thriving

"Since January 1st, up to the
present time, there has been over
20,000 more head of live stock ship-
ped out of Alberta than was the case
during the same period last year,"
said Mr. H. C. McMullen, general
live stock agent for the C. P. R.,
this morning.

"Though there was a decrease in
the shipment for export in 1909,
and though there will be a decrease
this year compared with a few years
ago, still the shipments from here
to points on the Pacific coast and to
Winnipeg, Toronto and Montreal
will more than offset the decrease in
the export trade. The reason why
the export trade has fallen off during
the last year or so, is because the
home consumption has rapidly in-
creased, namely at the coast and
eastern points. Also the demand
for butchers and feeding meats and
live stock generally has increased to
an extent of late years that if it were
not for the largely increased bulk
of live stock raised in Alberta, it
would be exceedingly hard to make
shipments to outside points.

"The shipment of hogs is the only
shipment of live stock from Alberta
to outside points that is on the
decrease. This is owing to the
increased demand for pork and hams
in the home province. The horses,
cattle and sheep markets are quite in
sympathy with one another, though
the provincial demand for horses
has increased of late years more
than either sheep or cattle.

American and Canadian Scientists tell us the common

PHYSICIAN TELLS HOW HE
TREATS RHEUMATIC
PATIENTS

A Distinguished Specialist Gives
Valuable Advice.

In the first place I always impress
upon my patients the importance of
careful living and regular habits.
Moderation in eating, keeping the
feet dry and wearing plenty of warm
clothing are some of the precautions.
No amount of medicine will cure,
or even help, unless attention is paid
to these few simple rules.

I have had perfect results where
patients followed these instructions,
assisted by the following blood tonic
and rheumatic specific: Fluid Ex-
tract Cascara, 1 oz.; Fluid Extract
Carrageen Compound, 1 oz.; Compound
Syrup Sarsaparilla, 5 oz. Dose: One
teaspoonful after meals and at bed-
time.

It is advisable to drink plenty of
water during the treatment.
A prominent local merchant who
has tried this treatment states that
it relieves headache, bladder trouble,
and urinary troubles almost im-
mediately and has a gentle but thor-
ough action on the kidneys.

We advise all our readers to keep
this prescription. The instructions
are valuable.

INDIANS ARE THRIVING

AN IMPROVEMENT IN CONDITION OF THE RED MAN

Annual Report of the Department of Indian Affairs is this year the most satisfactory yet issued—this Province Showing Decline of British Columbia, Where Indians Resist Intrusions of White Men.

Ottawa.—The report of the department of Indian affairs for the fiscal year ending March 31, last, is out. It is the most satisfactory yet issued by the department, showing a mild winter and the development of settlement in the west have made things much better for the aborigines. The only province which shows any moral decline, says the report, is British Columbia, but this is due to the fact that it is the last of the Canadian west to feel the effects of white "civilization" in the districts in which Indians are chiefly located.

The entrance of railways with its accompanying influx of settlers into what the tribes have from time immemorial regarded as their hunting grounds and forests, has created more especially on the north-west coast and in the Nooks and Skeena river districts, a feeling of unrest, which has been fanned into strength by outside agitators actuated by motives somewhat of a comprehension.

The Indians claim that under the old proclamation and under their rights to the country until surrendered by them and recognized and secured, which reduced to one between them and the provincial government. The whole matter is being gone into by the department of justice and the department is watching the interests of the Indians with expectation of an early and peaceful solution of the difficulty. The Indians are commencing to appreciate the advantages of attention to the white man's modes of living and of agriculture, and the feeling of unrest, which has been fanned into strength by outside agitators actuated by motives somewhat of a comprehension.

The report of the department of Indian affairs shows that there are now in the Indian reserves of the country 110,597 Indians, as compared with 111,043 during the previous year, a net decrease of 446. There were 2,499 Indian births during the year while there were 2,501 deaths, leaving a net increase of 397 in the original population. While the ports from the various reserves still continue to tell of the ravages of alcohol among the Indians, the reports that the evil effects are less than they were and the prospects of the red man are correspondingly bright.

STORM ON BRITISH COAST

Coasts Lined with Wreckage—Already 150 Persons Reported to Have Perished

London.—The Irish and English coasts are lined with wreckage, and grave fears are felt that the hurricane, which is hourly increasing, will claim the lives of many more. Already 150 persons are reported to have perished.

Many big vessels have either foundered or been driven ashore, while lumbering fish-boats, and smaller sailing, and are believed to have sunk. Corpses are being washed ashore at numerous places. Fishermen, sailors and sailors are known to have perished in the foundering of the steamer Heathfield, which was wrecked in North Sea, while twenty are believed to have died on the steamer Grandford, missing from Hartlepool and thought to have sunk.

Many small groups of fishing boats are reported missing from ports along the coast, and it is almost certain they have perished, for even large steamers and great difficulty in remaining afloat in the high seas that are running.

HAS EXCELLENT SANITARY LAWS

Easterners Surprised At Up-to-date Ordinances in Western Province.

Ottawa, Ont.—At the Dominion Public Health Conference, an interesting address was delivered by Dr. M. M. Seymour, commissioner of public health for Saskatchewan, in which he explained the public health laws of that province, which are recognized as constituting most progressive legislation on sewage disposal and water-works in the Dominion.

The effect of the Saskatchewan law is that no municipality can issue debentures for the construction of any sewerage system until that system has received the approval of the public health commissioners, nor can a vote be taken by the ratepayers respecting the construction of such works until the commissioners' approval has been obtained.

From Lakes to Edmonton
Fort William, Ont.—The Grand Trunk Pacific telegraph system between here and Edmonton, a distance of twelve hundred miles, was completed recently. A. B. Smith, superintendent of telegraphs, said twenty new stations with operators will be opened shortly between Winnipeg and Fort William.

\$24,500 for Canadian Missions
London.—According to the Society for the Propagation of the Gospel, \$24,500 has been received in response to the appeal of church work in western Canada.

ALBERTA CATTLE TRADE GOOD

The Shipments This Year Greater by 20,000 Than Those of 1909

Calgary.—Since January 1st, up to the present time, there has been over 20,000 more head of live stock shipped out of Alberta than was the case during the same period last year, says Mr. H. C. McMullen, general live stock agent for the C. P. R. "Though there was a decrease in the shipment for export in 1909, and though there will be a decrease this year compared with last year, still the shipments from here to points on the Pacific coast and to Winnipeg, Toronto and Montreal will more than offset the decrease in the export trade. The reason why the export trade has fallen off during the last year or so, is because the home consumption has rapidly increased, namely at the coast and eastern points. Also the demand for butchers and feeding meats and live stock generally has increased to such an extent of late years that it is not for the largely increased bulk of live stock raised in Alberta, it would be exceedingly hard to make shipments to outside points.

The shipments of hogs is the only shipment of live stock from Alberta to outside points that is on the decrease. This is owing to the increased demand for pork and hams in the home province. The horses, cattle and sheep markets are in sympathy with one another, though the reason why the export trade has increased of late years more than either sheep or cattle.

NEW CHIEF JUSTICE OF ALBERTA

Hon. Horace Harvey, Succeeds Hon. A. L. Sifton, Who Vacated the Position

Ottawa.—Hon. Horace Harvey, judge of the supreme court of Alberta, has been appointed Chief Justice of the province, succeeding Hon. A. L. Sifton, who left that position to become premier of the province. Mr. Harvey has been a member of the highest court since the organization of the province, previously a member of the supreme court of the Northwest Territories.

Previous to taking a position upon the bench, he was deputy attorney-general, and later, when appointed, Justice Scott. He is senior judge of the supreme court.

C. C. Simmonds, of Lethbridge, has been appointed a member of the supreme court, succeeding the vacancy created by the resignation of Premier Sifton.

Mr. Simmonds has been a member of the bar in the west for some years. He started practice in Cardston and then moved to Lethbridge. He was elected to the legislature for the riding of Lethbridge, succeeding Senator DeVeber, when that gentleman resigned from the legislature. He resigned from the legislature to contest the riding of Medicine Hat in the Dominion, but was defeated.

ROOSEVELT STARTS CAMPAIGN

"Wall Street and Tammany Hall" the Text of His New York Address

Elmira, N. Y.—A wide broadcast for Tammany and another for Wall Street, Theodore Roosevelt opened his campaign for the Republican nomination for the presidency, by his address at the Waldorf-Astoria Hotel, New York, last night. The text of his speech was: "Wall Street and Tammany Hall have been the two great evils of our country."

His slogan was: "You are wanted in room 212. Are you going?"

Room 212 in a Rochester hotel, was occupied by Charles F. Murphy, leader of Tammany Hall, during the Democratic State convention.

Colonel Roosevelt had only one theme for his speeches. It was that he wanted the line between Wall Street and Tammany Hall, which he said was the most complete alliance between corrupt business and corrupt politics, which the state had ever known, to be broken up. He said that the days of Tweed, since the Democrats should win the election he said Tammany and Wall Street would dominate the state to the detriment of the people.

WINNIPEG ASKS FOR \$25,000

Mayor Evans Puts It Up To Sir Wilfrid Laurier and His Colleagues

Ottawa.—The Winnipeg delegation, which arrived in Ottawa recently, asked Sir Wilfrid Laurier and his colleagues for a grant of \$25,000, to be used for the Canadian National Exhibition in 1914. Mayor Evans presented a memorial laying the matter fully before Sir Wilfrid, Mr. Fielding, and Mr. Fisher.

Sir Wilfrid said that he had not had an opportunity to give the matter any further consideration since July.

The proposal was discussed in Winnipeg. Hon. W. S. Fielding said promoters were entitled to an early reply, and that matter would be taken up by Cabinet without delay. To this Sir Wilfrid agreed.

Thanksgiving Day Excursions

For Thanksgiving Day, Oct. 31, 1910, the Canadian Pacific Railway Company are authorizing a rate of a fare and one third for the round trip. Tickets will be on sale from Oct. 28 inclusive, final return limit, November 1, 1910.

Laborers to Work on C.P.R.

Belleville, Ont.—A number of workers who have been working in the Grand Trunk shops here, are being sent for the West, where they will engage in construction work on the Canadian Pacific railway.

IRON ORE IN ALBERTA

A VERY IMPORTANT INDUSTRY IS PROMISED

Recent Tests Made by a Well Known Mineralogist of Iron Ore Discovered Within One Hundred Miles of Calgary. The Highest Testimony—Or Grades 45 per cent, Iron—Company Will Establish Steel Plant.

Calgary.—The possibility that Calgary may yet become one of the world's greatest steel and iron manufacturing centres was demonstrated to President Georgeon, of the board of trade, and other representative citizens and to members of the press, when A. E. Sjöstedt, of Sault Ste. Marie, mineralogist of world-wide fame, conducted a series of laboratory tests on ore said to have been collected within 100 miles of Calgary. The ideal surroundings to permit its development commercially, and promising a yield of 45 per cent, and 45.2 per cent iron, on two tests.

The reason why the export trade has fallen off during the last year or so, is because the home consumption has rapidly increased, namely at the coast and eastern points. Also the demand for butchers and feeding meats and live stock generally has increased to such an extent of late years that it is not for the largely increased bulk of live stock raised in Alberta, it would be exceedingly hard to make shipments to outside points.

The shipments of hogs is the only shipment of live stock from Alberta to outside points that is on the decrease. This is owing to the increased demand for pork and hams in the home province. The horses, cattle and sheep markets are in sympathy with one another, though the reason why the export trade has increased of late years more than either sheep or cattle.

The mineral ore on which the tests were made were declared by Dr. Ings, who explained the tests were made. They are said to have been taken at random from various places in an area of 20,000 acres in northern Alberta. The ore is said to be of the best quality, and within easy access and surrounded by mountains, which is generally the case with the sub-deposits, and therefore greater results are to be expected in the future, and for in subsequent tests have been made of ore from deeper down in the earth.

The chemist who is making the tests of the iron ore is a well known expert, and declares that he is of the firm opinion that the iron ore is of the best quality, and within easy access and surrounded by mountains, which is generally the case with the sub-deposits, and therefore greater results are to be expected in the future, and for in subsequent tests have been made of ore from deeper down in the earth.

According to Dr. Ings, the company which proposes to develop the ore and coal industries here has been assured of almost unlimited financial backing and will probably extend up wards of \$5,000,000 in establishing a plant.

VETERINARY ACCUSED OF GRAFT

Prince Albert Man Charged With Defrauding Government of Large Sums

Regina, Sask.—J. J. Montford, who proposes to develop the ore and coal industries here has been assured of almost unlimited financial backing and will probably extend up wards of \$5,000,000 in establishing a plant.

So far the amount of which the government is said to have been defrauded is \$100,000. The higher grades were very good, but a large percentage was affected by water conditions.

The Ogilvie milling industry is now one of the biggest in the world. The capacity of the company's mills is 15,000 barrels of flour every day.

The company has not built new elevators this year, but has purchased a number of old ones to keep pace with the growing conditions.

Thunderer Voices Its Opinion

London.—The Times says that anything that would be represented as free trade will be found to be merely an effort to re-adjust existing duties, and that the duty on other in the interest of a pushing class or section of British free traders.

The company has not built new elevators this year, but has purchased a number of old ones to keep pace with the growing conditions.

London.—The Times says that anything that would be represented as free trade will be found to be merely an effort to re-adjust existing duties, and that the duty on other in the interest of a pushing class or section of British free traders.

Sixteen Sailors Missing

Sheffield, England.—The British steamer "Hesperus" of Black & White, recently, two sailors arrived here in a ship's boat and reported that sixteen others were missing.

MAY LOSE POWER RIGHTS

Some Person Got in First on the Big Water Power and City Must Make a Fight

Edmonton, Alta.—It appears that the city of Edmonton will not be permitted to acquire the right to harness the Buller Rapids on the Athabasca river. The city representative, John S. Fielding, who was sent north a short time ago, to investigate the power possibilities, finds that he has been forestalled. According to a letter sent to the city representative, when he got to the rapids he found this notice nailed to a stake, stating him in the fact of the power possibilities, and being the first survey for the purpose of obtaining water rights in the Athabasca river, at Grand Rapids, taking in and including all necessary lands and all water passing thereover. Dated Sept. 10, 1910.

Signed by A. Violette, per M. W. Harris, witness, F. Violette. The letter made revealed the fact that A. Violette is apparently representing a large amount of American capitalists, and that he has been out-fitted in a hurry soon after the city had announced their intention of investigating the possibilities and rushing away into the north, beating the city to the site of the proposed power plant. It understood they also have a representative at Ottawa looking after their interests.

If it is stated, that one of the four men is a millionaire and that they have been thinking of the power possibilities of the Athabasca of some months. Although the city received a telegram from the Department of Interior in August, acknowledging receipt of preliminary application, Violette's letter makes it clear that no application had yet been filed.

TELEGRAPH AT PEACE RIVER

The Far-Distant District Now Has Rapid Communication Abroad

Peace River Crossing, Alta.—The long distance telegraph line, which was completed this point on October 6. Quite a gathering of the residents was held at the place in the evening, and the district was very much interested in the ceremony, and much friendly rivalry existed in transmitting the first message. Every citizen who expressed themselves as being highly delighted with the realization of one of the winter evening dreams of the past as regards closer communication with the outside world. The line is now being extended sixteen miles further to the Shady settlement, from which point it will have a telephone communication with the city of Peace River.

A steady stream of immigration continues to settle in this place, and the settlers bound for Grand Prairie and Peace River points. The banner crops of the district have been a big inducement to incoming settlers. Mr. S. A. Brick, of the district, has just finished threshing and has had a yield of 3,000 bushels of No. 1 wheat and 1,500 bushels of oats and other farmers in the district report equally favorable crops. One of these recent settlers of Grand Prairie has threshed 1,500 bushels of first class oats, at the selling price at present of \$1.50 per bushel, and has sold his first crop for \$2,250.

BLACK HAND SECRET

Discover Nature of the Acid and the Secret May Be Revealed

Ottawa.—Dr. Fagen, provincial health officer at Vancouver, performed a strange experiment when in the course of his attendance upon the Federal Provincial Health conference, he handed to Mr. McGill, chief analyst of the Dominion, part of the face of a victim of the Black Hand, a black and white cloth by some acid which has been so far impossible to designate. The victim was a man of the West, who assumed the name of Frank Julian. He is believed to have been killed by the Black Hand. The body was found in a swamp, partially decomposed, but the face bore marks which indicated that the victim was first blinded and then tortured. It is believed that if the character of the acid can be ascertained some trace may be had of the murderers.

NOT MUCH BUSINESS

Reports of Forestry and Insurance Committees Will Be the Chief Business

Victoria, B. C.—The British Columbia legislature meets January 11. The chief business of the session will be modification of statistics and reports of the forestry and insurance committees. It is not expected that any measures of railway assistance will be introduced. The important private bill will be the application of D. D. Mann, for a charter to extend the Canadian coast line to the eastern boundary of the province. This line is the property of D. D. Mann, and is owned by Wm. McKenzie has no interest in it.

Discover Highest Point in Rockies

Seattle.—Thos. Higgs, a government engineer, who has been at work in the Rockies, has just reported the discovery, north of latitude 49, that he believes to be the highest point in the Rockies, at the foot of Mount McKinley by nearly 2,000 feet.

Discussing the Standards

Winnipeg.—The grain standard board of the Western Canada is in session here, and will discuss the standards of inspection for this year's crop. It did not meet last year on account of the uniform excellence of all grains.

THE SUNDAY SCHOOL

LESSON IV.—FOURTH QUARTER, OCT. 22, 1910.

Text of the Lesson, Comprehensive Quarterly Review—Golden Text, Luke ix, 51—Commentary Prepared by Rev. D. M. Stearns.

At the close of this year have not come at or near the end of the quarter, I feel led to do with this with the last review and give the lessons and Golden Texts and then summary of the teaching as probably the most probable way to handle the fourteen lessons.

Third quarter.
No. 3. Peter's Confession, Matt. xvi, 13-28. G. T. Matt. xvi, 18.
No. 4. The Transfiguration, Matt. xvii, 1-8. G. T. Matt. xvii, 9.
No. 5. Forgiveness, Matt. xviii, 21-35. G. T. Matt. vi, 14.

No. 6. On to Jerusalem, Matt. xix, 1, 2, 13-28. G. T. Matt. xix, 14.
No. 7. The Laborers, Matt. xxi, 1-16. G. T. Matt. xxi, 33.
No. 8. Nearing Jerusalem, Matt. xx, 1-17. G. T. Matt. xx, 21.

No. 9. The Fig Tree, Matt. xxi, 33-44. G. T. Matt. xxi, 33.
No. 10. The Parable of the Laborers, Matt. xx, 1-16. G. T. Matt. xx, 9.
No. 11. Marriage Feast, Matt. xxii, 1-14. G. T. Matt. xxii, 14.
No. 12. The Parable of the Laborers, Matt. xxii, 1-14. G. T. Matt. xxii, 14.

No. 13. The Parable of the Laborers, Matt. xxii, 1-14. G. T. Matt. xxii, 14.
No. 14. G. T. Matt. xxii, 21.
No. 15. Temperance, Gal. v, 13-26. G. T. Gal. v, 22.

Fourth quarter.
No. 16. Wise and Foolish, Matt. xiii, 1-12. G. T. Matt. xiii, 12.
No. 17. The Talents, Matt. xxv, 14-30. G. T. Matt. xxv, 14.
No. 18. Judgment of Nations, Matt. xxv, 31-46. G. T. Matt. xxv, 40.

We must keep before us in all these studies the fact that Jesus is considering Jesus as the King of the Jews. As such he was born, and as such he lived, and as such he died, and we need to have a clear understanding of the promises to both, all of which are in the Bible. The promises are in many who see in Jesus only a Saviour by whom they may reach unto God, and not the revelation of Him in the Scriptures. He is the King of kings and Lord of lords, the prince of the king of the earth, before whom all things shall fall down and whom all knees shall bow, and to whom all hearts shall be drawn.

Revelation of Him in the Scriptures. He is the King of kings and Lord of lords, the prince of the king of the earth, before whom all things shall fall down and whom all knees shall bow, and to whom all hearts shall be drawn.

Revelation of Him in the Scriptures. He is the King of kings and Lord of lords, the prince of the king of the earth, before whom all things shall fall down and whom all knees shall bow, and to whom all hearts shall be drawn.

Revelation of Him in the Scriptures. He is the King of kings and Lord of lords, the prince of the king of the earth, before whom all things shall fall down and whom all knees shall bow, and to whom all hearts shall be drawn.

Revelation of Him in the Scriptures. He is the King of kings and Lord of lords, the prince of the king of the earth, before whom all things shall fall down and whom all knees shall bow, and to whom all hearts shall be drawn.

Mexico's cotton crop has increased in 19 years from 75,000 bales to 300,000 bales a year.

For Thanksgiving Day, October 31, 1910, the Canadian Pacific Railway Company authorizing a rate of fare and one-third for the round trip. Tickets will be on sale October 28 to 31 inclusive, final return limit November 2, 1910.

Seats at the drug store

Farmers get your buildings insured in the Wawanesa Mutual Fire Insurance Co. It is both economical and safe. \$1.10 per hundred for three years. Hultgren & Davie, Agents.

Crossfield, Alta., Oct. 13, 1910
Louis V. Bliss has sold his well drill to Messrs. Geo. Price & Andy Anderson, of Irricana. All past due accounts must be paid by the 22nd of October, as he must have things settled by that time. po2175

A good position—Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. R. and Wireless officials and places all graduates into positions. It will pay you to write them for full details at Davenport, Ia., Cincinnati, O., Portland, Ore., or Memphis, Tenn.

Death of Mrs. Gunderson

Mrs. Mary Gunderson died at the Holy Cross Hospital, Calgary, on Wednesday, October 19th, 1910, at the age of 80 years. She was born in Bergen, Norway, in the year 1830, and came to Chicago, U. S. A., in the year 1863, and resided there until the year 1879, when she went to Reynolds, north Dakota, where she lived until the month of May, in the year 1909.

Mrs. Gunderson leaves a son in Bufford, North Dakota, and a daughter, Mrs. W. J. Wilson, of Crossfield, and a step-son at Reynolds, North Dakota. much sympathy is extended by the residents of Crossfield and district to Mr. and Mrs. Wilson.

CRICKET CLUB TAKE NOTICE

The final game of the season will be played at Olds, October 31st. The team will take the morning train from Crossfield. Also that the Olds club have kindly invited the Crossfield club, wives and lady friends to attend their annual ball, which will be given the evening of October 31st.

If it is not possible for any club members or ladies to take the morning train, they are requested to come on the afternoon train, to be present for the evening. The officers of the Crossfield club urge its members to make special effort to go. And from the royal entertainment extended us, at Olds, in the past, all may expect a day of good sport. To be excused only by the evening that will follow.

CROSSFIELD CRICKET CLUB.

Crossfield School District No. 752

Tofield has Excellent Brick Clay

Last week B. J. Shaw, manager of the Bucyrus Brick Making Co., of Seattle, and Pete Anderson of Edmonton, visited Tofield on trips of investigation of the Tofield Brick Clay. Both expressed themselves as well pleased with the clay deposits here, stating that an excellent quality of brick could be made from it. Chas. E. Taylor is at their request sending to each of them samples of two classes of clay, 1000 lbs of the one and 2000 lbs. of the other.

Who Started the Fires?

Chief Fire Ranger W. J. Margach left this morning for Cowley to attend the trial of a homesteader named Fred McEwan, who is charged with maliciously setting out a forest fire. The chief ranger is using every effort to bring to justice and punish those who are responsible for the reckless setting out of fires and the resultant loss of timber, or stock, or whatever suffers. It is his wish to impress on everyone the importance of observing the forest regulations.

The case against McEwan is one based purely on circumstantial evidence, the complaint being lodged by Fire Ranger A. W. Hart. It appears that in July no less than 18 fires were started maliciously by some parties in the vicinity of the homestead of the accused, situated at township 12, range 24, west of the 5th meridian. The most serious fire of these was started on the last Sunday in July and Mr. Hart had to call in the assistance of ranchers and two parties of surveyors, and it then required several days of fighting to get the flames under control. This fire threatened the Waldron ranch, Heaton's ranch, and all the timber in the Porcupine.

Bush Fires again Threaten Minnesota

Duluth, Minn., Oct. 18.—Brush fires are threatening the settlement of Twig, sixteen miles west of Duluth, and the settlement around Pike Lake, two miles south of Twig and fire-fighters have been sent out from here to render assistance to settlers and others. E. M. Welsh, of Duluth, tried to get to Twig by team today and was forced to turn back.

Knife in his Back

Camden, N. J., Oct. 13.—Stabbed during a fight last March, Barney Gofney, colored, 26 years old, was not aware that about two inches of the blade of a large pocket knife was left in his back until he visited Cooper hospital in Camden. When

he called at the institution he complained of a severe pain. He had been using home remedies for rheumatism and as the pain grew worse he decided to go to the hospital for examination. Discovering a scar, the physicians asked if he had been injured.

"No," came the reply, "I was stabbed in a fight about six months ago, but I don't think that could have anything to do with the pain, now that the wound has healed."

Opening the old wound the physicians found the piece of steel and it was removed with difficulty. It was part of the knife with which Gofney was stabbed. Physicians say it is remarkable that tetanus had not developed.

Last of Buffalo Hunts Proposed

Calgary, Oct. 14.—Howard Douglas, commissioner of parks, made the announcement here, of a buffalo hunt the last in the world, starting on Nov 1 Mr. Douglas just returned from the Flathead reservation where he secured two more carloads of buffalo, amounting in all to 32 head.

There are 85 head left in the Pablo herd, of which 85 are very wild and have caused much trouble, frequenting the capture of the others while they are living. The park commissioner offers anyone who cares to go buffalo hunting, saddles, horses, a hunter and everything complete, while a charge of 250 will be made for the animal. As a buffalo head is worth twice that amount, and the robe about \$100, the offer is considered very reasonable.

According to Mr. Douglas, the government has about 1,000 buffalo in Alberta, of which 704 were secured from the Pablo herd. When the round-up started it was thought that the herd consisted of about 250.

More Buffaloes

It is expected that Howard Douglas, commissioner of parks, will arrive in the city tonight in charge of the final consignment of buffaloes from Montana to the park at Wainwright. This shipment will contain about 30 animals which will be shipped right through via the G. T. P. as soon as they arrive.

A Huge Turnip

That the Bawlf District is one of the best agricultural districts of Alberta is made apparent in various ways. This time it is a huge turnip raised by Geo. B. Newell southwest of town. Mr. Newell brought this turnip to the Bawlf Sun office on Saturday. After weighing and examining it this turnip proved to be much heavier and larger than anyone would think possible. It weighed 25 1/2 lbs. and measured 41 inches around.

INTERNATIONAL STOCK FOOD

FALL CLOTHING

All essential features of good clothes are found in this year models of "Sovereign Brand" Fabrics in fall fashions—extreme or conservatism. Ready! Mr. Man, for you to put right on and wear. Come! Inspect the goods. Our fall samples are here, of the celebrated "Campbell Clothing," "made for YOU"—that's the idea, that's when comfort and good service begin and end. Let us tailor for YOU; at prices away cheaper than Mr. Tailorman charges. A fit guaranteed.

CROCKERY DEPARTMENT

Our Shelves are loaded with fancy Staple China, Glass, and Staple Crockery, Jardenires, and Pedestals; also a large consignment of the famous Ohio Fire-Proof crockery, in Stew Kettles, Bowls, and Pitchers. This is cheaper than enamel ware and proved to be more sanitary. We ask you to kindly look over this department, it will interest you.

We are still offering Heavy Printed Linoleum at \$1.00 per yard, 2 yards wide. The cheapest piece in the west.

"SOVEREIGN" and "CAMPBELLS" CLOTHING

IF YOU
ARE NOT
A Subscriber to the
CHRONICLE
WHY NOT?

Simply because you will say that you have always been going to call in and give us a dollar for a year's subscription and that something else has always hindered you, or that there are other papers which are better. Then if that is the case, you are entirely wrong in your judgement. It contains the latest local news, of the town and surrounding districts, also the latest local markets and provincial notes relating to the general happenings of the province.

Once you have read the Chronicle you will say, "there is no better paper for the upholding of the town of Crossfield and district than this paper the "CHRONICLE."
